SUMMARY

Growth & Operations professional with 3+ years driving retention, monetization, and product analytics across consumer audio and edtech. Delivered 8–15% completion rate lifts, 5–10% trial-to-paid conversion gains, and 70–80% operational effort reduction via AI-native automation. Operates at the intersection of data, product, and cross-functional execution — translating ambiguous growth problems into measurable experiments with clear business outcomes.

EXPERIENCE

Operations Associate

Apr 2026 – Present

Pocket FM · Bengaluru, India

- **Retention Engineering:** Diagnosed show-level drop-off patterns across 25 active shows; optimized content cadence and sequencing to lift average completion rates by 8–12%.
- **Monetization Experimentation:** Repositioned high-converting content within churn windows to improve trial-to-paid conversion by 5–10%, directly impacting revenue per show.
- **AI-Native Automation:** Engineered Zapier-based workflows for show tracking and operational reporting, eliminating 80% of recurring manual effort across the ops team.
- **Analytics Infrastructure:** Built Power BI dashboards monitoring DAU, retention cohorts, and revenue per show — adopted as the primary performance review tool by cross-functional leadership (weekly cadence).
- **Content Operations at Scale:** Owned end-to-end lifecycle for 45 shows (script → release), sustaining 95%+ on-time delivery with zero SLA breaches.

Operations Manager

Jan 2026 – Mar 2026

Masai School · Bengaluru, India

- **Funnel Diagnostics:** Ran SQL-based analysis across 600+ users to surface onboarding and payment drop-off patterns; workflow fixes improved early-stage retention by 5%.
- **Reporting Infrastructure:** Delivered 3 Power BI dashboards covering onboarding health, payment performance, and 8+ KPIs — used weekly by 5+ stakeholder groups to drive operational decisions.
- **Incident Resolution:** Resolved 100+ payment failures in coordination with finance and support, maintaining zero escalation rate throughout tenure.

Product Analyst

Jun 2025 – Dec 2025

Stackbox Services Pvt Ltd · Bengaluru, India

- **OMS Analytics:** Monitored order lifecycle, fulfillment rate, and dispatch TAT across 50K+ monthly orders; identified systemic bottlenecks that contributed to an 18% reduction in processing delays.
- **TMS Product Operations:** Owned UAT lifecycle for geofencing-based shipment tracking across a TMS handling 10K+ monthly shipments — translated product requirements into structured test coverage, improving real-time visibility and cutting MTTR for logistics incidents.
- **ETL & Reporting Automation:** Built ETL pipelines and async reporting workflows automating 20+ recurring operational reports, improving reporting accuracy by 35% and reducing analyst toil.
- **Logistics Insights:** Analyzed TAT, route efficiency, and delivery trends across supply chain workflows — findings contributed to a 15% reduction in average logistics turnaround time.
- **KPI Framework:** Partnered with product, ops, and engineering to define 10+ KPIs and streamline analytics workflows, cutting ad-hoc reporting requests by 10%.
